

## **Feel the breeze – Ryan Dsouza**

### **Verse One**

Green grass and blue skies  
Wake up early to the morning sunrise  
Smell the air on the salty wind  
Gives me reason a reason to live  
Gonna sit back and feel the breeze  
Feel the breeze  
Watch the whales cross the sea and feel the breeze

### **Verse two**

Kona coffee just like hot lava  
Its not too bad for island java  
Drink it down chase it with a beer  
Its paradise while you're here  
Gonna sit back and feel the breeze  
Feel the breeze  
Watch the whales cross the sea and feel the breeze

### **Bridge**

Turtles on the beach they're getting tanned  
Flowers blooming, pick them with your hands  
Mountain peaks that rise and point so high  
Hit the booze and don't ask why

## **Harmonica solo**

### **Verse three**

Got a picture hanging on the wall  
Little roosters with their wake-up calls  
Fly up high to see the waters fall  
Blows my mind like a fireball  
Gonna sit back and feel the breeze  
Feel the breeze  
Watch the whales cross the sea and feel the breeze

Gonna sit back and feel the breeze  
Feel the breeze

Watch the whales cross the sea  
And feel the breeze

### **Outro**

Gonna sit back (Gonna sit back) and feel the breeze  
Feel the breeze (And feel the breeeeeeeze)  
Watch the whales (Hit the booze) cross the sea and feel the breeze  
(Don't ask whyyy)  
Feel the breeze (Drink it down)  
Feel the breeze (And chase it with a beer)  
Feel the breeze  
Oooh Oooh
