

The Letter – Ryan Dsouza

Verse one

The mailman showed up today
With an apology
It seems some mail had been lost
For many years you see
It didn't even have a stamp
Or a post mark too
But it had been dated
Christmas 1942

Chorus

It was from my grandpa
To his wife to be
Promising his love
For all eternity
He never made it back
She raised my daddy all alone
But now we have this letter
That finally made it home

Verse two

Merry Christmas Darling
Wish I could be there
I just penned this note
To show how much I care
You are always in my dreams
And in all my plans
I'll show you my love
In every way I can

Chorus

It was from my grandpa
To his wife to be
Promising his love
For all eternity
He never made it back
She raised my daddy all alone
But now we have this letter
That finally made it home

Bridge

He never knew about my dad
She kept it off his mind
She didn't want him worried
Just trying to be kind
His pictures on our mantelpiece
Remembered to this day

Chorus :

It was from my grandpa
To his wife to be
Promising his love
For all eternity
He never made it back
She raised my daddy all alone
But now we have this letter
That finally made it home

Outro

But now we have this letter
That finally made it home
It finally made it ho-me.
